The drawings are objected to because in figure 3, the notation "Front of the vehicle" appears incorrect. The notation should state "Side of the vehicle", or the like. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 6 and 20, "in vehicle longitudinal direction", is awkward, and should be changed to "in a longitudinal direction of the vehicle", or the like.

In line 23, "unlock" should be "unlocks".

In line 27, "waiting the slide..." should be "waiting for the slide".

In line 29, "disengage" should be "disengages".

In claim 2, line 3, "rod longitudinal direction" should be "a longitudinal direction of the rod", or the like.

Claims 1-4 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Nihei, Bauer et al, Kojima, Mathey et al, Kanda et al, Sechet et al, Christopher, Debus et al, Tame and Niimi et al show various features of the invention.
